WELLAND VALE Snow Shovels - Furnace

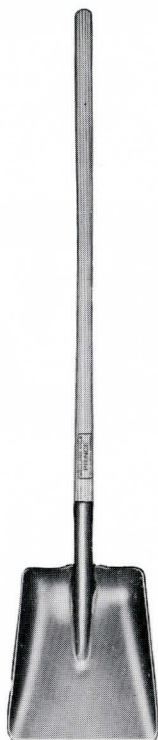

No. 5

No. 5—Prince D Handle Snow or General Purpose

Blade is formed hot from high carbon shovel steel for strength and long wear. Handle has the well made and popular steel YD top with plenty of hand room. Blade measures $14\frac{1}{4}$ inches x $11\frac{3}{4}$ inches. Overall length, $45\frac{1}{2}$ inches. The most popular and useful general purpose shovel on the market. Packed 6 in a bundle.

No. 6—Prince Long Handle Snow or General Purpose

Same fine construction and blade size as the D handle Prince, but with long handle. Overall length $58\frac{1}{2}$ inches. Packed 6 in a bundle.

No. 6

No. CM—Comet D Handle Snow or General Purpose

This shovel has same size blade as Prince and regular style D top. Measures $45\frac{1}{2}$ inches overall. A top quality competitively priced shovel. Packed 6 in a bundle.

No. 3—King D Handle Snow or General Purpose

Blade is made from high carbon shovel steel and measures $14\frac{1}{4}$ inches x $11\frac{3}{4}$ inches. Handle has the strong YD steel top making an overall length of 49 inches. A nicely balanced fine quality tool. Packed 6 in a bundle.

No. 2—Moose Railroad or Heavy Duty, Heat Treated

Built for really heavy service on railroads, in lumber camps, in corporation use, for street cleaning. The blade is made from a special high carbon steel and is heat treated to give the maximum in strength and quality. The blade measures $14\frac{3}{4}$ inches x $11\frac{3}{4}$ inches and the Handle is equipped with new Sturdee D top. The overall length measures 50 inches. This is a top ranking shovel for heavy duty use. Packed 6 in a bundle.

No. 1—Moose Lumberman's Snow Shovel, Heat Treated

It has the same high quality as the Moose Railroad shovel, with larger blade which measures $15\frac{1}{2}$ inches x $13\frac{1}{4}$ inches. Has new Sturdee D top and answers the need for a large heavy duty shovel. Packed 6 in a bundle.

Not illustrated.

No. 55—Aluminum Snow or General Purpose

This shovel has a heavy gauge light weight aluminum alloy blade. Perfectly balanced to make snow shovelling easier. The lighter weight means less lift on each shovelful. Equipped with the new Y Steel D top. Blade measures $14\frac{3}{4}$ inches x $11\frac{3}{4}$ inches. Overall length $50\frac{1}{2}$ inches. Packed 6 in a bundle.

GM Green Mountain Aluminum Snow Shovel

This aluminum shovel, light in weight and low in cost, is exceptionally fine value. The blade measures $14\frac{1}{4}$ inches x $11\frac{3}{4}$ inches. Overall length $45\frac{1}{2}$ inches. Ash Handle and regular steel D top. Real shovel value. Packed 6 in a bundle.

and Stable Scoops - Sidewalk Scrapers

No. 10—O.K. Wide Steel Snow Shovel

A high carbon steel shovel, ribbed for strength, that makes snow removal quicker. Light snow can be pushed as well as shovelled. Blade width, 18 inches at bottom and tapered to 15 inches at top. 13¾ inches deep and shovel is 46 inches overall. Packed 6 in a bundle.

No. 7—House Furnace Scoop

Made from high carbon steel for household use. Blade, 14¼ inches x 9 inches. Steel D handle, length overall, 45½ inches. Long handle, length overall, 54 inches.

Packed 6 in a bundle.

No. 17—Improved Furnace Scoop (Not illustrated)

A high carbon steel scoop with greater capacity to carry coal or ashes. Blade 14½ inches x 10½ inches. Steel D handle, length overall, 45½ inches. Packed 6 in a bundle.

No. 11—Special Stable Scoop

Made from high carbon steel. Specially designed for stable use to fit the gutter in the barn. Deep bowl with straight sides gives larger capacity. Blade 14¼ inches x 10¾ inches.

Steel D handle, length overall, 45½ inches. Long handle, length overall, 58½ inches.

Packed 6 in a bundle.

No. 8—Bulldog Sidewalk Scrapers

Forged from a solid high carbon steel bar. Socket and blade are one piece. Built to stand rough work. Blade 6¼ inches x 8½ inches. Long handle. Length overall 57 inches.

Packed 6 in a bundle.

No. 9—Fox Sidewalk Scraper

A general purpose scraper made from high carbon steel. Rivetted socket. Blade 5 inches x 8½ inches. Long handle. Length overall 51 inches.

Packed 6 in a bundle.

No. 118A

No. 65

No. 118A—Wide Blade Aluminum Snow Shovel

This is one of the most popular items in the line. Has an aluminum alloy blade. Exceptionally light in weight. Attractively finished. Fire hardened handle. Blade measures 18 inches x 15 inches and has a steel wear strip rivetted to the edge for longer service. The ribbed aluminum blade and the steel wear strip are an ideal combination for light weight and long service. This free-swinging True Temper light weight shovel almost makes snow shovelling a pleasure. Overall length 48 inches. Packed 3 in a bundle.

No. 65—Boy's Snow or Utility Shovel

A strong well-made shovel that answers the demand for a child's shovel that will stand up to hard use. Made from shovel steel and attractively painted in red enamel; it is a very useful tool. Blade 8¾ inches x 7 inches. Ideal to carry in the car for winter use. Long 30 or 36 inch handle. Packed 6 in a bundle.
